## Summary

I am a Full-stack web developer who is able to build a website with a full database back end, and an amazing and light layout, from scratch. Great team player and a responsible person. Originally from the U.S. Virgin Islands , I am currently studying information and communication Technology (ICT Engineering) at UNIBE (Universidad Iberoamericana), the #1 university here in the Dominican Republic and have always had a passion for technology. In love with Front-End development and proficient in Back-End development. I also have extensive experience working with groups and leadership skills.

I always want to learn more, do more, and be more. Always striving to apply my programming skills to make applications perform smoothly and more open to the world. I want to find solutions to the technically challenging facets of applications. I'm excited to employ these skills as part of a fast-paced, quality-driven team in order to build better experiences on the web.

## Experience

### Free lance Full-stack Developer

Self-employed

Aug 2016 - Present (6 years 10 months)
